

GPS MONITORING SOLUTION FOR DUMPSTERS & ROLL-OFF CONTAINERS

LEVEL SYSTEMS, leader in battery powered GPS tracking products, brings affordable solutions for your company to have a digital overview of distributed dumpsters. See all of them at once on a map, monitor their delivery, track drivers, plan returns and much more. Our solution helps waste management companies and municipal agencies track movement of their assets and therefore save costs.

Constant GPS tracking of dumpsters with GPS tracker

The monitored dumpster is equipped with our GPS Tracker TotalFinder device with industry leading battery life.

-))) Constant GPS location tracking
-))) Anti-Theft Security - alarms in case of unauthorized movement
-))) Monitoring of temperature, air pressure, humidity, acceleration, vibration and tilting
-))) Recover missing assets - see current location and route history in map
-))) Battery life up to 2 years without charging (GPS position tracking each 60 minutes)
-))) Rechargeable by USB-C
-))) Narrowband IoT & LTE-M versions available for even longer battery life and connectivity
-))) Remotely configurable; location tracking at selected time intervals
-))) Easy installation by extremely strong magnets
-))) Special holder for secure installation available
-))) IP66 Waterproof

Dumpsters delivery location monitoring GPS tracker + tag

The dumpster or roll-off container is equipped with a low cost Bluetooth tag. Location shown is based on its last pairing with the GPS tracker installed on the delivery vehicle.

-))) Delivery location tracking, see all distributed dumpsters in map at once
-))) IP66 (tracker) + IP67 (tag) waterproof
-))) Tag battery life up to 4 years, replaceable AA batteries
